Summary: On September 5, 2001, Kathryn Slater-Carter of Montara Sanitary District met with Tom Long, advisor to Cmmr. Lynch, in San Francisco. Also present was Edward O'Neill, counsel for Montara Sanitary District. O'Neill stated that the proposed decision fails to adequately address the right of Montara District ratepayers to adequate service and reasonable rates. Slater-Carter explained that there is a long history of inadequate water supply in the Montara District. Slater-Carter also stated that while service has long been deficient, rates in the Montara District are the highest in the area. O'Neill stated that under California-American Water Company's proposal, Montara District ratepayers are guaranteed that rates will soon be increased further. O'Neill further stated there is no basis for attributing any acquisition premium to Montara Sanitary District facilities. O'Neill stated that rates in Montara should be set on a cost of service basis with acquisition savings applied to offset, in part, the high cost of badly needed system upgrades.

Summary: LATE FILED. On September 6, 2001, Philip Stohr, counsel for the California Industrial Users (CIU), met with Cmmr. Brown in San Francisco. Also present were Dan Carroll and Ann Trowbridge, counsel, and Alan Chalfant, consultant, for CIU; and the CIU member representatives Michael Peters of BOC Gases, Ed Marlovits of Air Liquide America Corporation, and Robert Merlo of Anheuser-Busch Companies. Written materials (attached to the notice) were used. Referring to the application for rehearing of D01-05-064 (Decision) filed by CIU, Stohr, among other things, noted that despite the lack of factual support for the proposition that all kWh hours for all customers on the utilities' systems can legitimately be priced at the same amount, that premise is behind the equal cents per kWh approach adopted in the Decision. Stohr noted further that at the time of the hearings, the Commission did not have information concerning the Department of Water Resources power purchase

contracts. Stohr stated that should the Commission stop short of a complete rehearing, the extremely high large customer rate increases could be mitigated. Peters described the monetary impact of the Decision on BOC Gases' operations. Marlovits noted the impact of the Decision on Air Liquide's customers, who are themselves finding it necessary to cut back in light of the rates imposed by the Decision. Merlo noted that there are large disparities across the country in energy costs, which can impact a company's decisions about where to produce its products. Referring to a proposal to suspend direct access, Carroll pointed out the likely unconstitutionality of suspending direct access retroactively and stated that if it is suspended at all, it must be on a prospective basis. Peters noted that businesses need direct access as a tool to help them manage their power costs. Merlo noted its value in dealing with reliability concerns.

Summary: On September 11, 2001, Susan Mara of Enron Corp. had a telephone communication on behalf of the Alliance for Retail Energy Markets (AReM) with Cmmr. Bilas. Resolution E-3527.

Summary: On September 11, 2001, Bruce Foster, Vice President, Regulatory Operations, Southern California Edison Company (Edison), had a telephone communications with Cmmr. Bilas. Foster stated that imputed utility rate, if implemented, would represent a radical departure from cost of service ratemaking. Foster urged the Commission to adopt Edison's proposals for balancing accounts. Foster stated that the draft decision (DD) properly rejects Department of Water Resources' (DWR) proposed postage stamp rate in favor of cost of service cost allocation principles. Foster also argued that the DD does not resolve certain key assumptions underlying DWR's revenue requirement. Foster stated that the Commission must decide how these costs are going to be recovered. Foster noted that the DD takes no position on the issue of franchise fees on DWR's revenues. Finally, Foster discussed the exclusion of demand bidding programs from DWR's revenue requirement.
